

## LETTER TO NORTH FULTON RESIDENTS – TIME FOR MILTON

John Albers, the leading Republican candidate for State Senate District 56, was the ONLY State Senate candidate to attend a legislative committee meeting and education session regarding House Resolution 21 (Re-Creation of Milton County). North Fulton mayors, city council members and community activists packed the room.

Said Albers, "Putting politics aside, it is deeply concerning others running for the same office I seek did not make the time to attend this important session. The families of North Fulton have suffered from a lack of quality services from Fulton County for years and have my complete support. I will dedicate myself and time to re-create Milton County so our citizens can be best served."

"Chairman Eaves of the Fulton County Commission presented his case for keeping Fulton united, but it failed quickly when Representatives Willard, Jones and Geisinger pointed out the decades of poor service and continuing mismanagement. North Fulton Mayors and Commissioner Lynne Riley set the record straight on how the North Fulton cities are better governing locally and decades of poor service from Fulton continue to loom. Senator Dan Moody also echoed the call for Milton County and as your next Senator; I'll continue his bold leadership. I continue to hope for success this session with a positive vote and referendum. However, if not, I'll lead a parallel process beginning immediately; to begin systematically separating key services including a separate North Fulton school district. Measures such as these will provide a quick impact until such time as we have a new Milton County and Milton County School system."

"Being a State Senator takes a substantial commitment of time and energy, I make that commitment. I have consistently demonstrated involvement in our community. Once elected, I will work tirelessly to serve the families in North Fulton and make Milton County a reality. I look forward to being North Fulton's customer service State Senator."

Thanks,
